SQL - Arithmetic Operators

Here are a few simple examples showing the usage of SQL Arithmetic Operators −

Example 1

```
SQL> select 10+ 20;
```

Output

```
+--------+
| 10+ 20 |
+--------+
|     30 |
+--------+
1 row in set (0.00 sec)
```

Example 2

```
SQL> select 10 * 20;
```

Output

```
+---------+
| 10 * 20 |
+---------+
|     200 |
+---------+
1 row in set (0.00 sec)
```

Example 3

```
SQL> select 10 / 5;
```

Output

```
+--------+
| 10 / 5 |
+--------+
```

```
| 2.0000 |
+--------+
1 row in set (0.03 sec)
```

Example 4

```
SQL> select 12 %  5;
```

Output

```
+---------+
| 12 %  5 |
+---------+
|       2 |
+---------+
1 row in set (0.00 sec)
```
